Tabata Treadmill Run

- Warm up at moderate pace for 3 minutes
- Increase to speed 10 and incline 1.0. **These are just recommended speeds to start. You can always adjust the speeds if it is too easy or too difficult. Push yourself but make sure you can complete the workout.**
- Holding onto the rails, step on and catch up to speed. Let go of rails and sprint for 20 seconds. After the 20 seconds, step both feet off again and rest for 10 seconds straddling the belt. Repeat this sequence for 4 minutes.
- Decrease to an active rest speed and jog for 3 minutes, then repeat for 2 more sets of 4 minutes each.
- Once finished with set 3, reduce speed to 5 mph and cool down for 3 mins.

If no access to a treadmill - this can also be done outside. Use a watch to time your 20 sec sprint (90-100% effort) and 10 sec active recovery (walk).
